

Konoba Bajso

Tavern Bajso is located 260 meters above sea level. It offers the enjoyment of a beautiful view of the Adriatic Sea and the Dalmatian islands with an old, traditional flair that awakens the dormant Dalmatian history. In their tavern, they try to ensure that all their guests enjoy a relaxed atmosphere with top traditional dishes made from indigenous recipes. They produce most of the food themselves, have their own meat dryer, a garden where they grow seasonal vegetables, and homemade house wine.

Highly recommended

Restoran Astoria

Restoran Astoria is a Traditional family restaurant with amazing food located in Krilo Jesenice next to the harbour. They have a lot of different options on the menu, we tried almost everything and there was nothing we didn't loved.

All food is fresh prepared and you definitely taste that.
